Round Lake Beach, IL 60073

pmurray0511@gmail.com

Professional Profile

More than 18 years technical experience with a wide variety of products from aircraft and computers, to automobile transmissions. ISO Certified Internal auditor.

- Proven ability to resolve problems from production delays to equipment problems.
- Created testing procedures to address problems and to prevent problems from occurring. Dedicated to continuous improvement of department.
- Have a strong commitment to customer satisfaction and product quality.

Professional Experience

Kaplan Trucking & Paving
Machine Operator

Mundelein, IL
January 2008 to February 2008

- Operated asphalt recycling machine, front-end loader and pallet loader.
- Provided on-site patch work at customers' locations.
- Assisted with daily operations on company grounds.

Accurate Transmissions, Inc./ ETX Transmissions Inc.
Quality Assurance Supervisor

Mundelein, IL
1994 to 2008

- Managed quality assurance department in regards to production planning/ coordinating with the dyno operators. Ensured the department had all parts needed to keep up with the fluctuation of daily production.
- Created training materials in both written and electronic form.
- Designed and created equipment to test components (*i.e. solenoid tester*).
- Gathered dyno test results and distributed for further analysis.
- Calibrated pressure gauges throughout the company per ISO 9000: 2001 requirements.

Achievements

- Helped spearhead the dissemination of information about the benefits of ISO certification to employees including increased profits, improvement of in-house processes and reduction of manufacturing problems.
- Created charts for both dyno setup and specifications in web page format (HTML); this created uniformity on dyno setups regardless of which operator or dyno was testing each transmission. Almost 900 different dyno setups were created by myself.
- Planned, presented to management, and designed oil tank/ dyno filtration system layout.
- Co-designed and built a solenoid test bench.

VTech Computers

Lake Zurich, IL

RMA Technician

1993 to 1994

- Tested all computers (PCs), monitors and peripherals.
- Identified bad assemblies down to the component level.
- Responsible for department when supervisor was absent.

Achievements

- Created analog modem test bench to test all returned modems.
- Assisted department manager with inventory accountability with returned goods.

Military

U.S. Navy

Virginia Beach, VA

Plane Captain / Aviation Electrician

1989 to 1993

- Responsible for turnaround and inspection of aircraft, as well as, flight integrity.
- Trained Plane Captain Trainees.
- Oversaw safety of the ground support crew around the aircraft during operations.
- Responsible for entire aircraft and crew when aircraft was under my command.

Education

College of Lake County

Grayslake, IL

65 Credit Hours Earned toward Associate degree

Currently taking courses for a SolidWorks certificate
